

SYSTEM AND HARDWARE REQUIREMENTS

CAD Decor Paradyż

SYSTEM REQUIREMENTS

- operating system: Windows 10, Windows 8/8.1, Windows 7, Windows Vista - 32/64-bit;
- the IntelliCAD program (provided with our CAD programs free of charge).

Note! CAD Decor Paradyż program do not operate on Linux or Mac OS.

recommended hardware requirements for CAD soft

WITH THE PROFESSIONAL RENDERING MODULE

- quad-core processor e.g. i5, i7 (on a dual-core processor the program operates slower);
- RAM for 64-bit systems: 8 GB, optimal: 16 GB;
- Nvidia GeForce graphic card - minimal: ★★ ★, optimal: ★★ ★★ / ★★ ★★ ★★ (see the table below);
- most recommended configuration: Windows 7/8/10 64-bit, RAM: 16 GB, Intel Core Processor i5 4690, i7 4790, i7 5930k, Nvidia GeForce graphic card ★★ ★★ / ★★ ★★ ★★ (see the table below).

recommended hardware requirements for CAD soft

WITHOUT THE PROFESSIONAL RENDERING MODULE

- dual-core or multi-core processor, 2,6 GHz, optimal: 3 GHz and 3 MB Cache;
- minimal RAM: 4 GB, optimal: 8 GB (required 64-bit system);
- Nvidia GeForce graphic card - minimal: ★★, optimal: ★★ ★ / ★★ ★★ (see the table below).

Note! The proper operation of our CAD programs is not guaranteed with graphic cards other than Nvidia GeForce ones. With graphic cards marked with single star ★ programs will operate slower, accordingly to card's parameters. If you have an older generation graphic card, please verify its performance in relation to the above table. You are welcome to contact your local dealer or our technical support for assistance.

Please be informed that older, non-updated versions of CAD Projekt software may not work correctly on a new, commercially available cards Nvidia GeForce, as well as other new components computer or the latest versions of Windows operating systems, which release date precedes the date of distribution of the software.

MINIMAL HARDWARE REQUIREMENTS

not guaranteeing a smooth program operation

- single-core processor 2,0 GHz;
- RAM: 2 GB for Windows Vista, 7, 8 and 10 32-bit; 4 GB for Windows Vista, 7, 8 and 10 64-bit;
- Nvidia GeForce graphic card, minimum GeForce series 8600 GT (512 RAM) and better models in this series (cards supporting OpenGL 3.0 and GLSL 1.3 or higher).

OTHER RECOMMENDATIONS

- DVD-ROM drive necessary to install the program (min. 8x);
- hard disc space: about 5 GB (or more, dependant on number of installed databases).
